Work experience

Senior Software Engineer | [Devetry](#)

October 2021 / Current • Portland, OR • Full-time

- Advise the client on technical implementation choices, risk mitigation, and handling priorities of the business.
- Gave a [talk on communication in the context of code reviews](#), sparking a healthy conversation among employees about communication best practices.
- Interviewed candidates for senior roles, providing thorough feedback to the team, thus making well-informed decisions about the applicants.

Senior Software Engineer | [Twenty Four 7](#)

August 2020 / October 2021 • Portland, OR • Full-time

- Laid the foundation for the growing engineering team, leading to the adoption of Agile development and ceremonies, version control workflows, code reviews, and dedicated communication channels for the software engineers.
- Discussed project timelines with stakeholders to estimate completion according to the constraints of the business's clients.

Senior Software Engineer Consultant | [Parallel45](#)

January 2020 / August 2020 • Portland, OR • Self-employed

- Set the groundwork for project management and software engineering best practices by putting in place various guidelines and utilizing new tools in order to support the growth of the client.
- Played a critical role in the formation of the client's software development team by giving interviews to candidates and hiring the client's first junior engineer.
- Helped the client's team transform business and technical requirements into bite-sized tickets, actionable spikes, and meaningful epics, creating a clear roadmap for the client's project.

Software Engineer | [CBT Nuggets](#)

June 2018 / November 2019 • Eugene, OR • Full-time

- Promoted a new approach to online IT training by developing the MVP, writing the technical documentation, and demoing to the CEO and CTO a platform that enables content creators to collaboratively produce multimedia training courses. This project is still being developed to this day under the name [Adept Learning Platform](#).
- Stimulated the adoption of new technologies such as GraphQL and styled components throughout the company by leading the React Guild.

Previous positions

May 2015 / February 2018 • Eugene, OR • Full-time

- Web Developer at [Local Food Marketplace](#)
- Founder of [Le Petit Pain Bakery](#).

Education

B.A., English Language and Literature/Letters, Université Paul-Valéry Montpellier, France.
